## What's your cost ?

---

**Medical Card** – If your child has the medical card or all kids they may have two office visits and one school visit per year in which an exam, cleaning, and Fluoride is covered 100%.

So even if your child has been seeing a dentist at his office, your child may still be seen in the school at NO COST.

**Private Insurance** – If your child has private dental insurance your child may be seen in the school setting. Typically there is ZERO copayment on the services that we provide: exams, cleanings, Fluoride and sealants. This is easily verifiable by phoning our office. **(618) 993-8333**.

2011-12 school year, we treated over 500 children with private insurance and none were required to pay anything out-of-pocket.

**Grant** – Grant coverage is available for children who receive free or reduced lunch but do not have the medical card.

There is no cost for this service.

**Cash / Checks  
Credit Cards** – In the event that your child does not qualify for any of the above, you may pay cash/check/credit card for our services. Your child will receive an exam, cleaning, Fluoride and sealants where needed. The full price for this is \$128.

If you are unable to pay the full charge, you may sign the waiver on the front of this form and pay the reduced fee of \$68.
